Dear Prenatal Patient:

El Camino Hospital has a policy that all “parents-to-be” must choose a pediatrician before coming to the hospital to have your baby. To assist you in choosing, we will provide you with a partial list of the pediatricians working out of El Camino Hospital at your intake appointment. Please do the following:

- ✓ Choose a pediatrician by 28 weeks (about 6 ½ months) of pregnancy. Feel free to use this list or to choose a doctor not on this list.
- ✓ Make sure that the doctor you choose uses El Camino Hospital. Or choose a doctor from another hospital for regular pediatric care, and an El Camino Hospital doctor for care while you and your baby are in the hospital.
- ✓ Contact your health insurance to ensure that you understand your coverage for pediatric care.
- ✓ Tell us the name of your pediatrician around the 28th week of pregnancy.
